These celebrated Spectacles are made of Brazilian Sand, and known under the name of Brazilian Pebbles, and con-structed in accordance with the philosophy of nature, in the peculiar form of a concavo-convex mirror, admirably adapted to the organ of sight, and can be used by the old and the young to pursue the most minute employment, ei-their by day or cardle light, with perfect ease, and never cause that giddiness of the head or unpleasant sensation to the eyes that many experience from using the common kind, u; tend to strengthen and improve the sight, as will be seen y the following testimonials from those using them. TESTIMONIALS.

From J. H. McMahon, Esq., Editor Memphis Bulletin. MEMPHIS, March 24th, 1855. Mr. J. H. Srumons-Sir: The use I have made of the pair of Glasses obtained from you, satisfies me of the utility and value of the form and material by which they are distinguished. Without magnifying the object beyond the size apparent to the atural vision, they render it distinct and clear without fittigue to the eye.

So far as my limited experience extends, I am very much leased with them.

Very respectfully your ob't serv't.

J. H. McMAHON.

From Hon. Geo. D. Prentice, Editor Louisville Journal. \* \* \* Undoubtedly they are the best Spectacles in the world. The continuous use of them for any number of hours does not fatigue the eyes in the least, and the vision of age is rendered by them in all respects like that of youth.

Ma. J. H. Framoss—Dear Sir: I have carefully examined your Brazilian Pebble Spectacles, and most cheerfully add my testimony to their superiority over any other lenses I

Besides the philosophy of this form, shape, &c., the remarkable transparency and hardness of the material ren-der them peculiarly adapted to the purposes of assisting impaired vision, which, unlike other Spectacles, do so without fatiguing the eye by their use.

I can, my dear sir, cordially recommend your Brazilian Pebbles to my friends as especially worthy of their confidence, and feel assured that a trial will in every case give satisfaction. I am, my dear sir, truly yours, &c.
A. K. TAYLOB, M. D.,
Prof. Anat. Memphis Med. College.

I have examined and used myself Mr. J. H. Semmon Brazilian Pebble Spectacles, and fully concur in the opinion expressed above by Prof. A. K. Taylor, as to their superiority, both in form and material, over the ordinary glasses, and recommend them to all persons requiring the use of Spectacles.

L. SHANKS, M. D.,

Prof. Obst. Memphis Med. College.

From the Hon, David Dale Owen, U. S. Geologist, NEW HARMONY, March 28, 1854. Mr. J. H. SERMONS: Sir:-Having examined your Spectades constructed of concavo convex Brazilian Pebbles, take glass spectacles. Their superior hardness prevents ther being del cted by scratches; the peculiar manner in which they are ground and polished, together with their transparency, obviate the strain usually experienced in wearing glasses, and their coolness especially, recommends them to

Ma J. H. Sunmons-Sir: I have been using for one week the pair of Braz lian Spectacles that I purchased from you that I have ever used. I am enabled to read the finest print at night by a dim light, without straining my eyes, whereas the spectacles that I have used heretofore, burt them, and I could not read with any satisfaction. I consider your spectacles a great improvement upon any that I have ever Yours, respectfully, From Egbert A. Rawerth, Esq., City Recorder. NASHVILLE, July 27, 1855.

Ma. J. H. Semmons—Sir: After ten days' constant use of the Spectracles obtained from you, I feel phagantied in testi-fying to their efficiency in restoring a relieving impaired vision. Previous to obtaining them my manuscript duties were performed with much labor to the eye, and often with pain; but since I have used your Brazilian Pebbles I have experienced nothing of the kind, but feel perfectly rejucened. Whether the relief proceed from the peculiar form of the glasses or the material, or both combined, I cannot say. I prefer them to any glasses I have ever used, and take pleasurs in recommending them to the public.

Respectfully, EGBERT A. RAWORTH.

From the Rev. Dr. J. T. Edgar. NASRVILLE, Aug. 4, 1855, Mr. Sgmmons—Dear Sir: Having used, for some time past, a pair of your newly invented "Brazilian Pebble Spectacles," I feel no hesitation in testifying to their superiority over any glasses heretofore known to me. In addition to their unequalied purity of surface, they impart, from their pecquiar mechanism, a visual case and comfort, preserving alike all sense of pain or uneasiness to the eye, however long at any one time they may be used.

Very respectfully your friend, J. T. EDGAR. From Hon. Cave Johnson, President Bank of Tennessee. DEAR SIR: I have for several weeks used a pair of your Brazilian Pebbic Spectacle- and have no hesitation in stating that I consider them much superior to any other ever used by me, and have taken pleasure in recommending the use of them to my friends in preference to any others.

Respectfully, your obedient servant, C. JOHNSON. UNION AND AMERICAN OFFICE, Nashville, Aug. 13, 1855. I have been using glasses for some four or five years, and during that time I have tried a number of different description and manufacture, some of which I thought very good, but a few days since I obtained a pair of Mr. Sen.mons' Brasilian Pebbie Spectacies, have given them a preity fair tri-1 and have no besitation in saying that they are far superior to any thing that I have ever tried in that line.

From Hugh Erwin, Esq. NASHVILE, Aug. 16, 1855, Ms. Jas. H. Sennoss-Dear Sir: The Brazilian Pubble by Glasses that I purchased of you about two weeks since, have proved fully equal to all you said respecting their good qualities. They are much superior to any I have ever used, and I would earnestly advise all who are compelled to use Spectacles to call at your office and procure a pair without
